**Ranking of College Life Priorities**

Study, sleep and social interaction are three key components of college life. As far as their importance is concerned, I firmly believe study comes first, followed by sleep, and then socializing.

First and foremost, pursuing academic knowledge is the fundamental mission for every college student. It equips us with expertise and shapes our thinking, laying a solid foundation for future careers. Secondly, sufficient sleep plays an irreplaceable role in supporting our daily life. Regular and high-quality sleep refreshes our body and mind, effectively boosting learning efficiency and protecting our physical health. Admittedly, socializing brings plenty of benefits. It helps us make like-minded friends and polish communication skills. Nevertheless, excessive socializing will only distract us from our main tasks.

To sum up, reasonable prioritization helps us fully enjoy and make the most of our precious college years.

Dear Kate,

Glad to learn that you plan to compile our English compositions into a collection, I'd like to put forward a small suggestion to make the book more exquisite.

It would be perfect if we added matching illustrations to the essays. Relevant pictures can not only make the book more eye-catching, but also help readers grasp the core messages of the essays more easily. What's more, lovely drawings will liven up the whole collection and bring readers a better reading experience. Besides, I'm willing to take charge of the drawing work. I love drawing and I've gained some experience from designing posters and other school publications.

If given the chance, I will do my best to create suitable illustrations for the book.

Yours,  
Li Hua

Dear Jim,

Delighted to hear that you've taken an interest in our school's "When Sports Meet AI" event held last month, I'd like to share some details with you.

A special exhibition showcased cutting-edge AI technologies applied to sports. The star attraction was a pair of AI-equipped running shoes: they monitored pace and stride length, and delivered instant guidance to improve running techniques. What's more, we participated in interactive practical sessions, getting hands-on access to a wide range of smart sports gear.

Personally, the event has had a profound influence on me. It deepened my understanding of the integration of technology and sports, and fueled my enthusiasm for further exploration in this promising area.

Should you have any other questions, please do not hesitate to reach out.

Yours,

Li Hua

**My Dream Campus Day**

Campus life is full of warm and touching moments, yet we often neglect to praise the goodness around us. Therefore, among all the theme day choices, I am eager to propose setting up a Thumbs-up Day as an ideal campus theme day.

To make this day meaningful and lively, I have planned several distinctive activities. On this special day, students can write down sincere praise, blessings and appreciation for their classmates, teachers or even campus staff on colorful note cards. We can set up a public praise wall in the hallway to post these warm notes for everyone to see. Undoubtedly, Thumbs-up Day carries great significance for our campus growth. It encourages us to discover and appreciate others' merits and helps us develop a grateful and positive attitude towards life.

In short, Thumbs-up Day is a simple but powerful theme day. I firmly believe it will bring more

warmth and positivity to our campus life.
